	Vice Director of Department of Finance 2019-Present Beijing Technology and Business University
	Assistant Professor 2019-2021 Beijing Technology and Business University
	Visiting Scholar 2017-2018 Cleveland State University
RESEARCH INTERESTS	Financial Literacy, Intrahousehold Decision-Making <p>I am interested in financial literacy and intrahousehold decision-making. By collecting microdata from China household surveys of different waves, I get to know the family in China. I want to examine the functioning and influence of family members with the economic shocks. I am working on family interactions in the home, intrahousehold resource allocation, family well-being, and the impact of financial literacy on family behavior. I also want to investigate how financial literacy helps the over-indebted family in China.</p>
